PURE

WHITE GALAXY

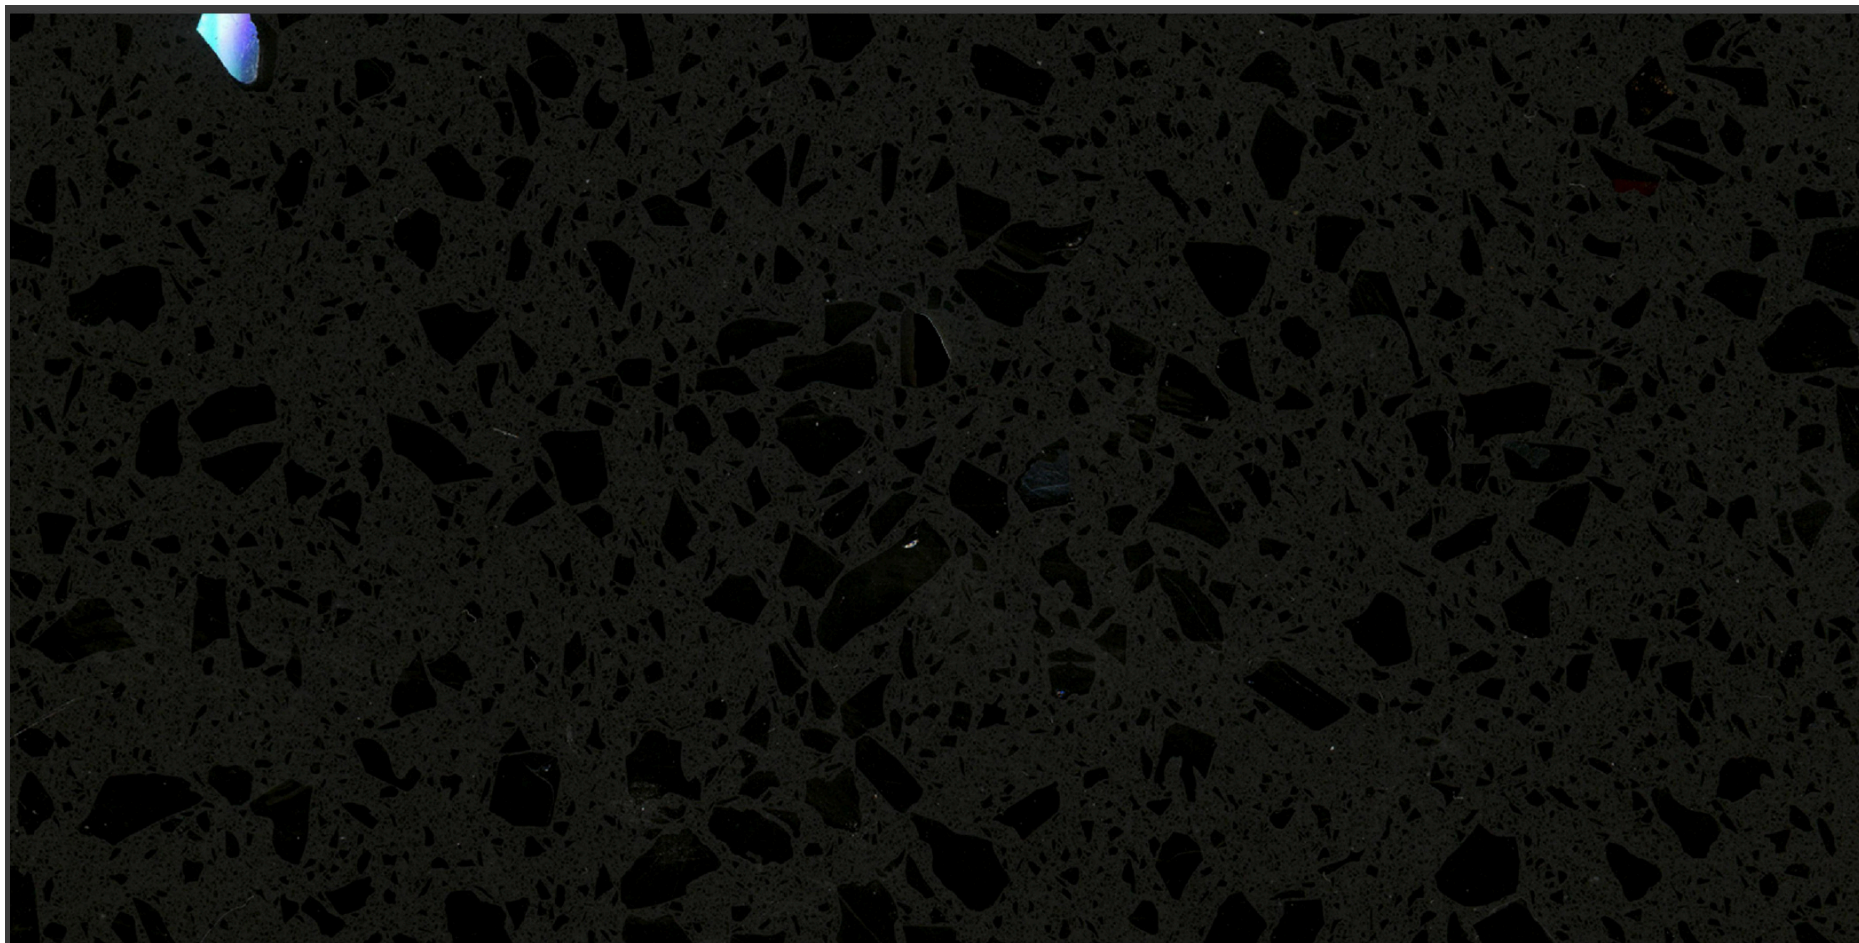

A bright white surface scattered with subtle crystalline particles, recalling the appearance and brilliance of a distant galaxy.

CODE: 1200

■ **DIMENSIONS**

3200*1600*20mm

3200*1600*30mm

BLACK GALAXY

A deep black background animated by fine shimmering accents, creating a distinctive visual effect.

CODE: 1201

DIMENSIONS

3200*1600*20mm

3200*1600*30mm

BLACK PEARL

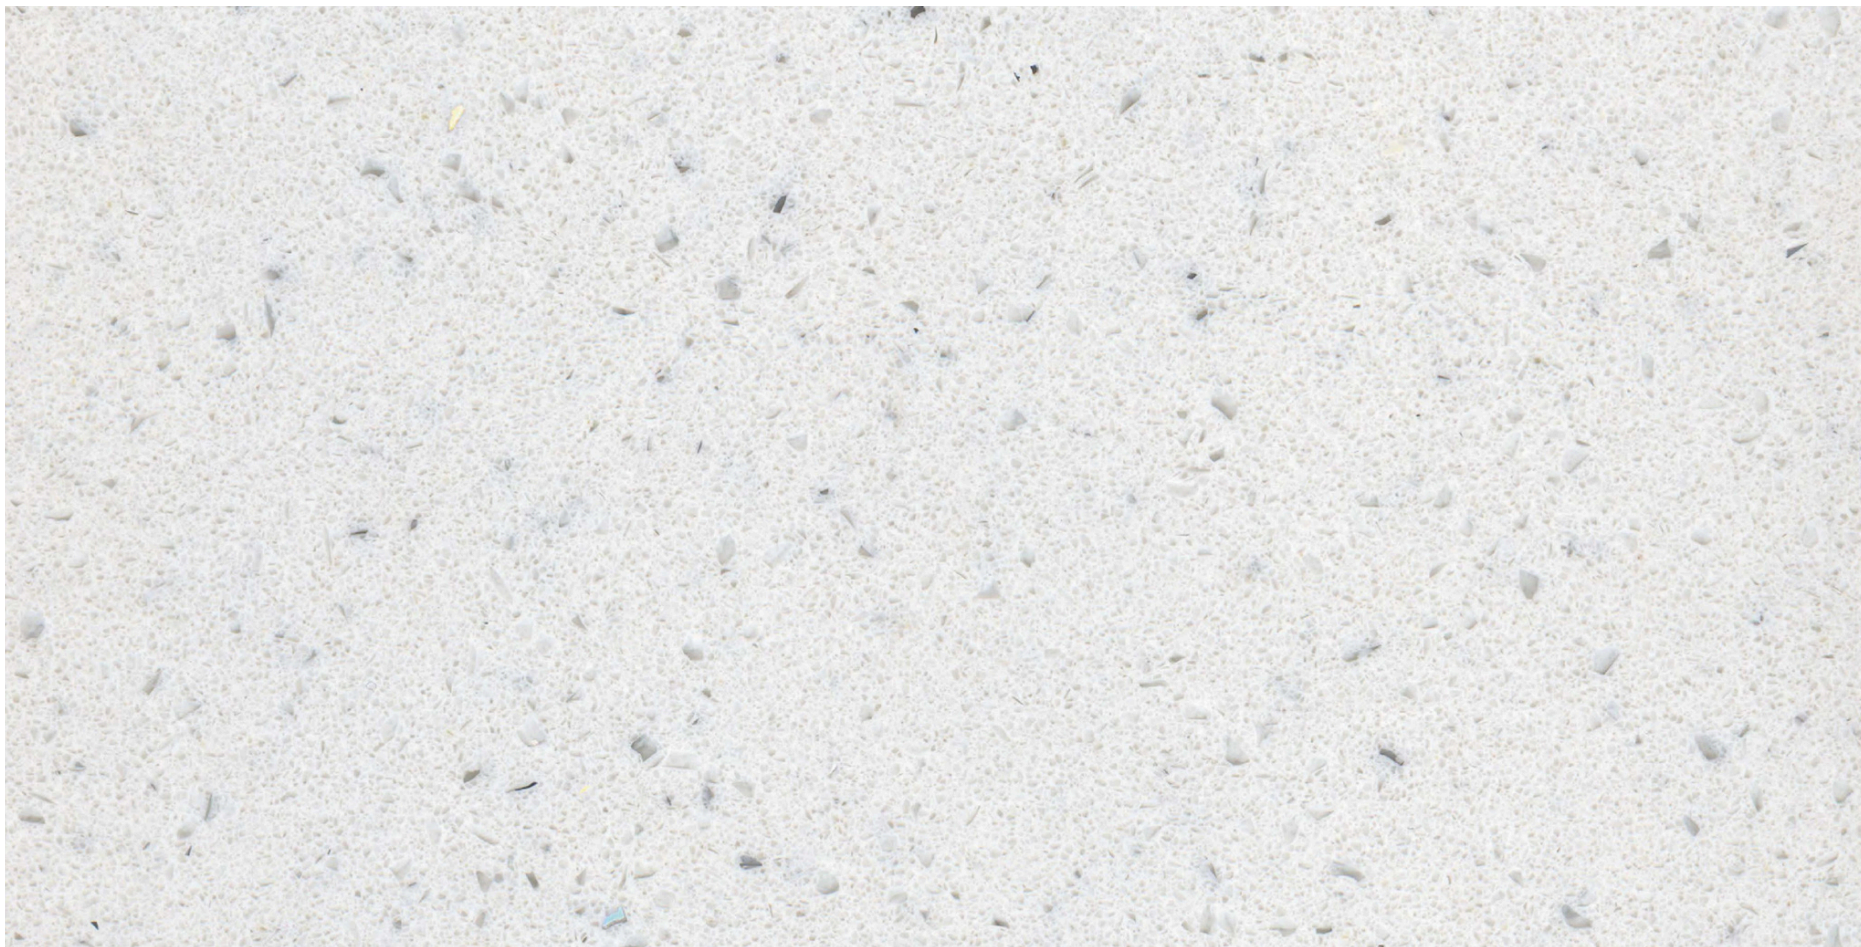

A deep black background animated by fine shimmering accents, creating a distinctive visual effect.

CODE: C15

DIMENSIONS

3200*1600*20mm

3200*1600*30mm

WHITE SKY

A clean white surface defined by uniform tone and consistency, delivering simplicity and architectural neutrality.

CODE: 1314

■ **DIMENSIONS**

3200*1600*20mm

3200*1600*30mm

CARRARA

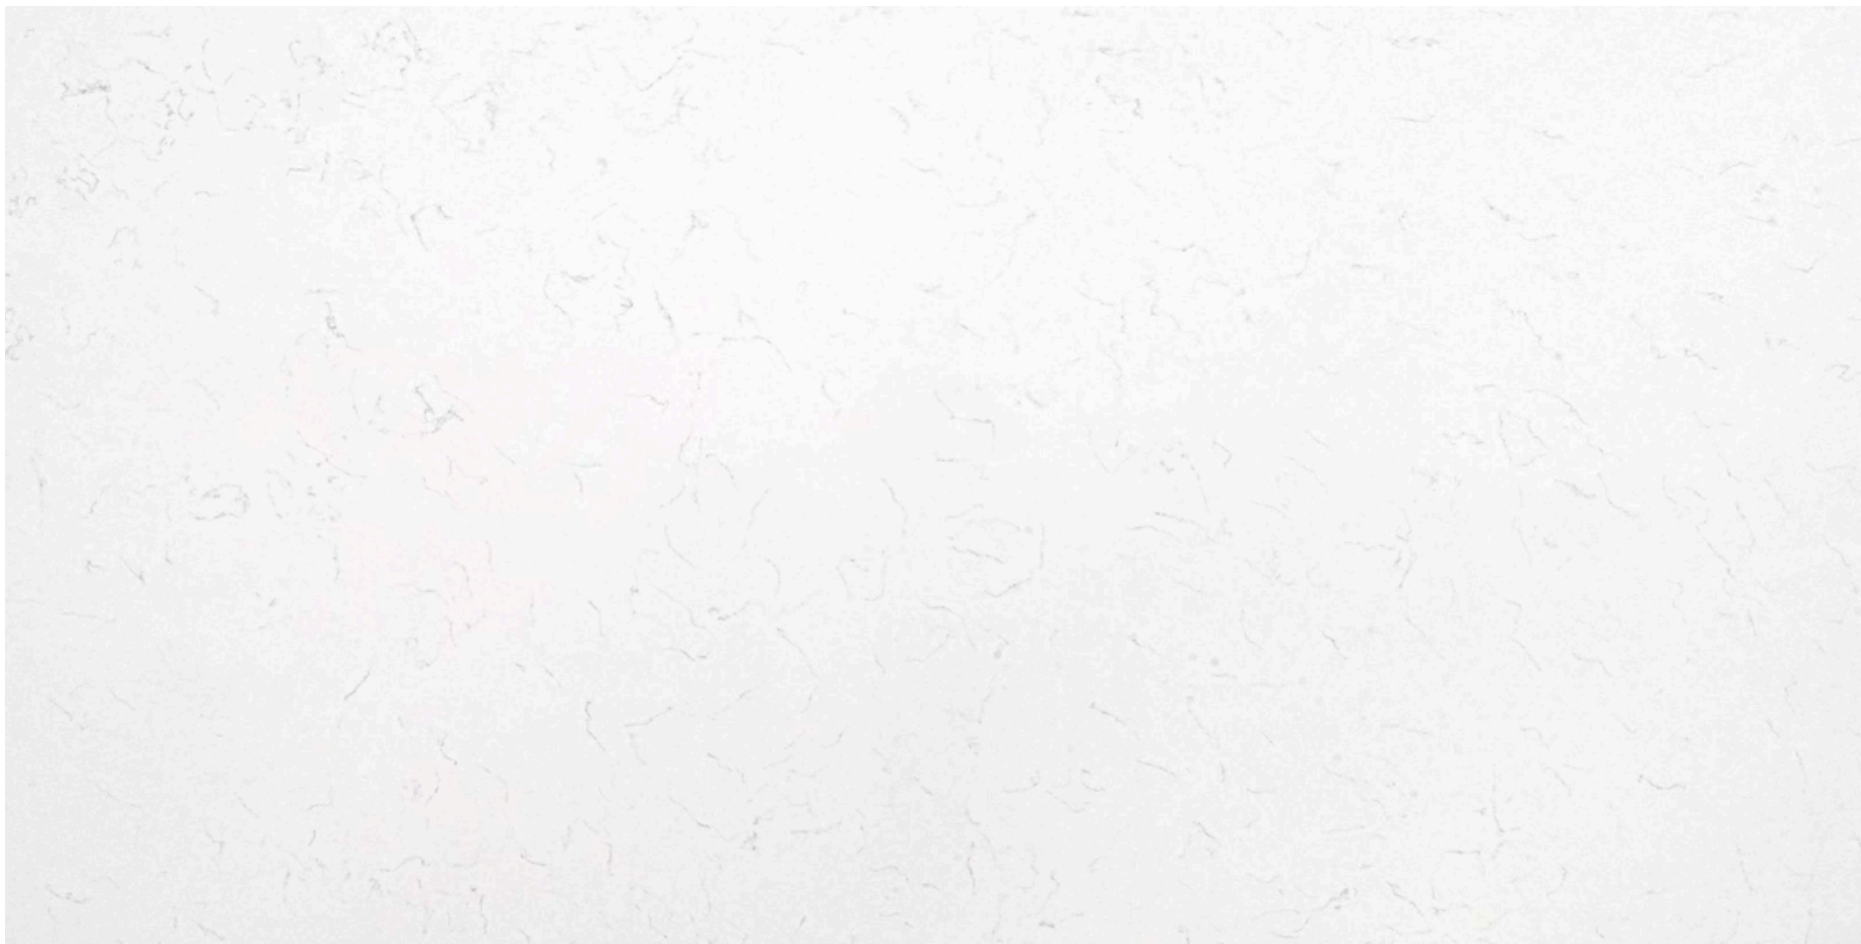

A clean white surface defined by grey details, delivering simplicity and luxury at the same time.

CODE: W622

■ **DIMENSIONS**

3200*1600*20mm

3200*1600*30mm

CARRARA

A clean white surface defined by grey details, delivering simplicity and luxury at the same time.

CODE: 20260325

■ **DIMENSIONS**

3200*1600*20mm

3200*1600*30mm

EXTREME WHITE

An exceptionally bright and pure white surface, defined by absolute clarity and maximum luminosity.

CODE: 1600

DIMENSIONS

3200*1600*20mm

3200*1600*30mm

PURE GREY

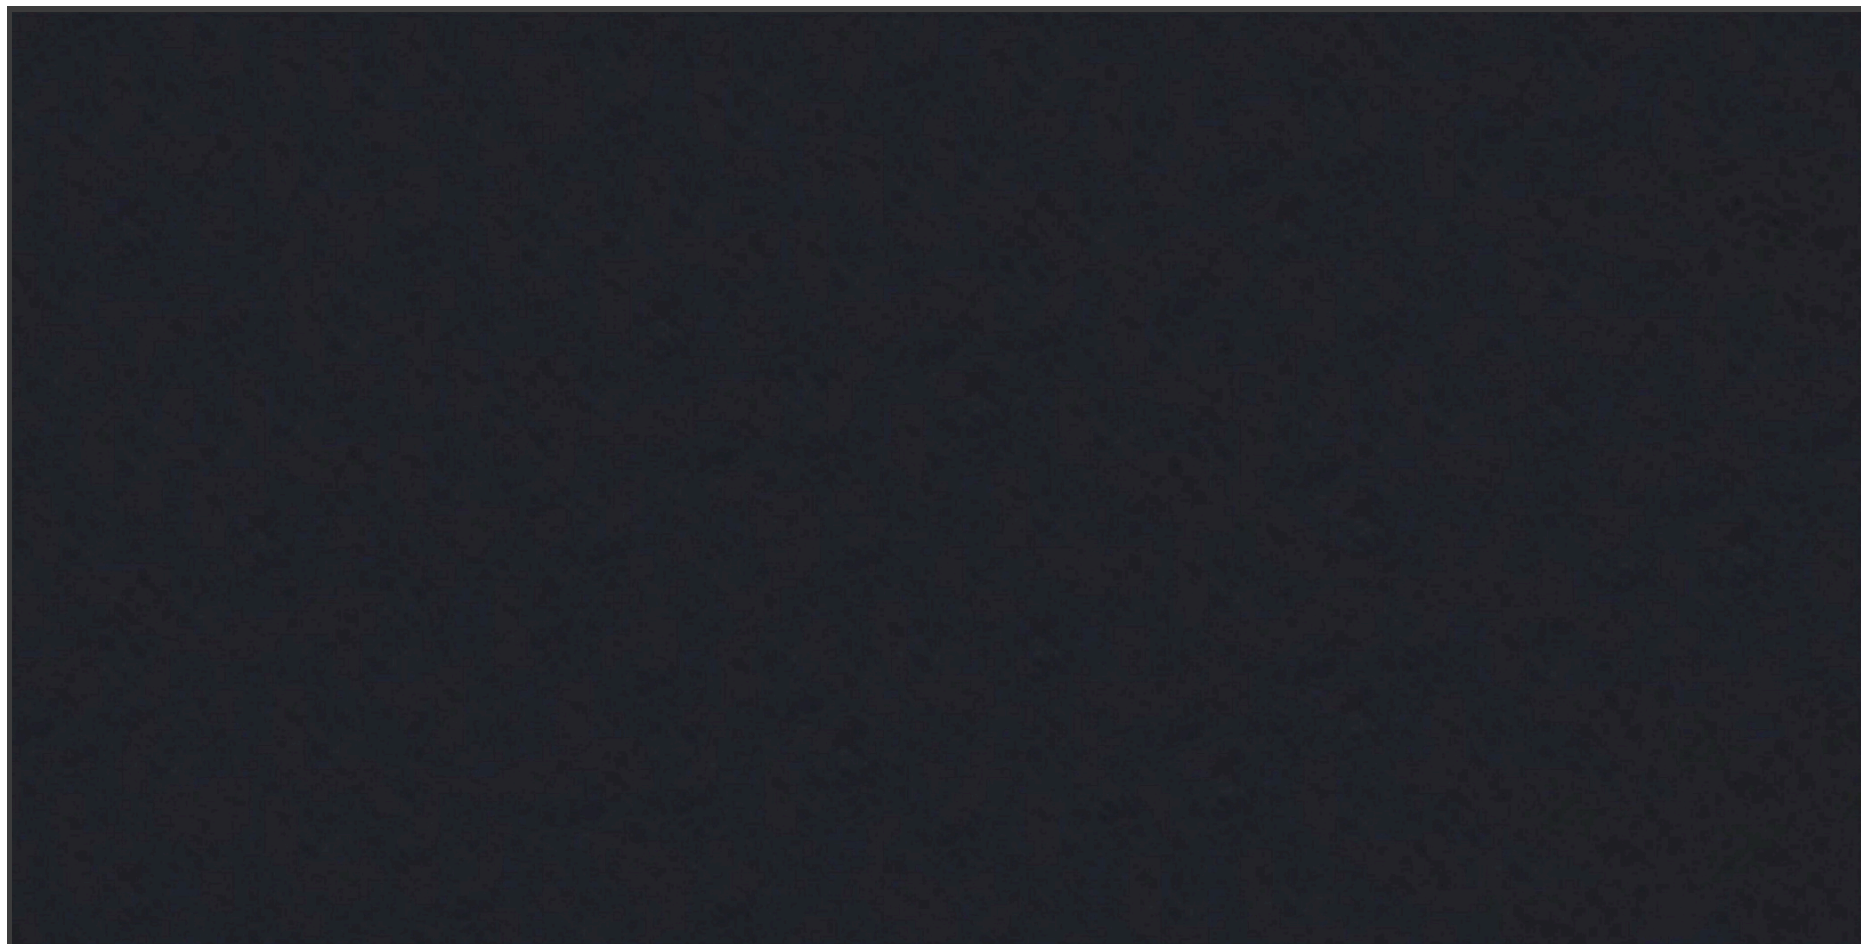

A neutral grey surface with consistent tone, designed to integrate seamlessly into architectural designs.

CODE: 1004

DIMENSIONS

3200*1600*20mm

3200*1600*30mm

PURE BLACK

A solid black surface delivering uniform depth and clear architectural statement.

CODE: 3001

DIMENSIONS

3200*1600*20mm

3200*1600*30mm

PURE BEIGE

A warm beige surface with natural undertones, ideal for calm and welcoming spaces.

CODE: 1005

DIMENSIONS

3200*1600*20mm

3200*1600*30mm

LIGHT BEIGE

A light beige surface with natural undertones, ideal for calm and welcoming spaces.

CODE: 1008

DIMENSIONS

3200*1600*20mm

3200*1600*30mm

VRATZA

A light-colored surface inspired by the aesthetics of limestone, with a natural color variations.

CODE: FL103

DIMENSIONS ■

3200*1600*20mm

3200*1600*30mm

VENA

ABU DHABI GOLD

A luminous surface enriched with golden veins, expressing luxury and warmth.

CODE: 1033

DIMENSIONS

3200*1600*20mm

3200*1600*30mm

CALACATTA GOLD

A bright white background with refined gold veining, balancing luxury and architectural clarity

CODE: 1101-1

DIMENSIONS

3200*1600*20mm

3200*1600*30mm

CALACATTA

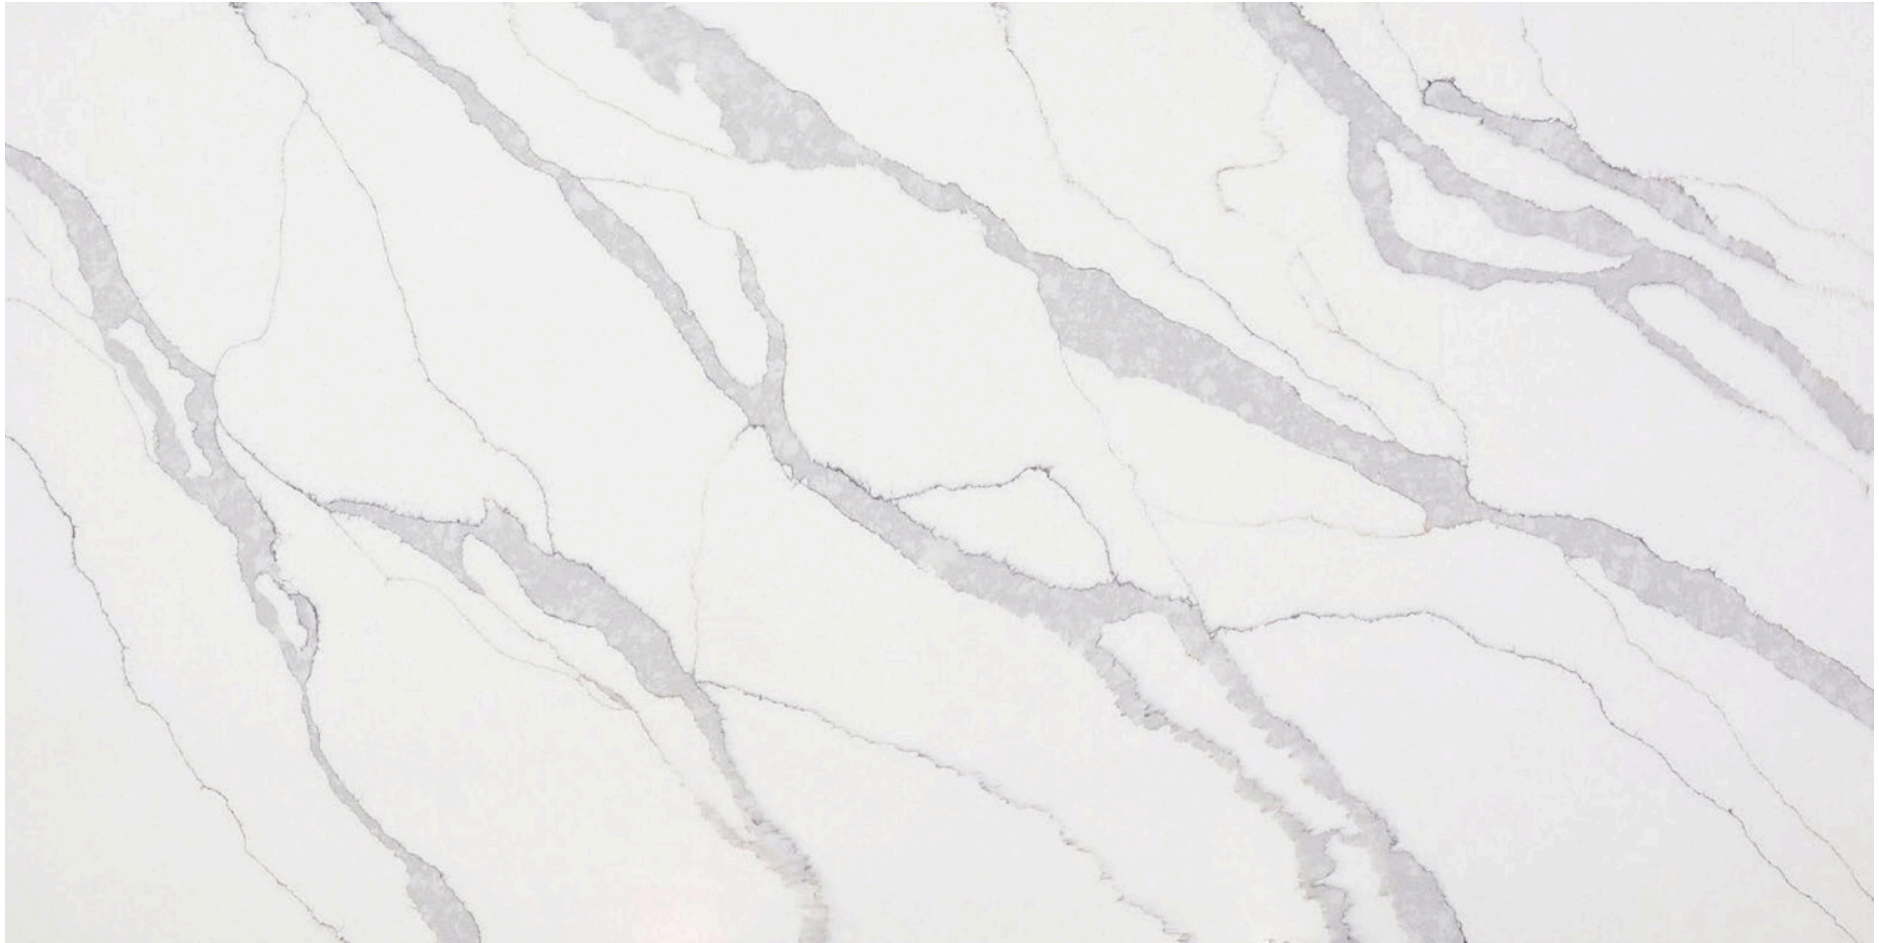

A white surface with soft grey and beige veining, offering balanced movement and strong architectural appeal.

CODE: 4045

■ **DIMENSIONS**

3200*1600*20mm

3200*1600*30mm

CALACATTA EXTRA

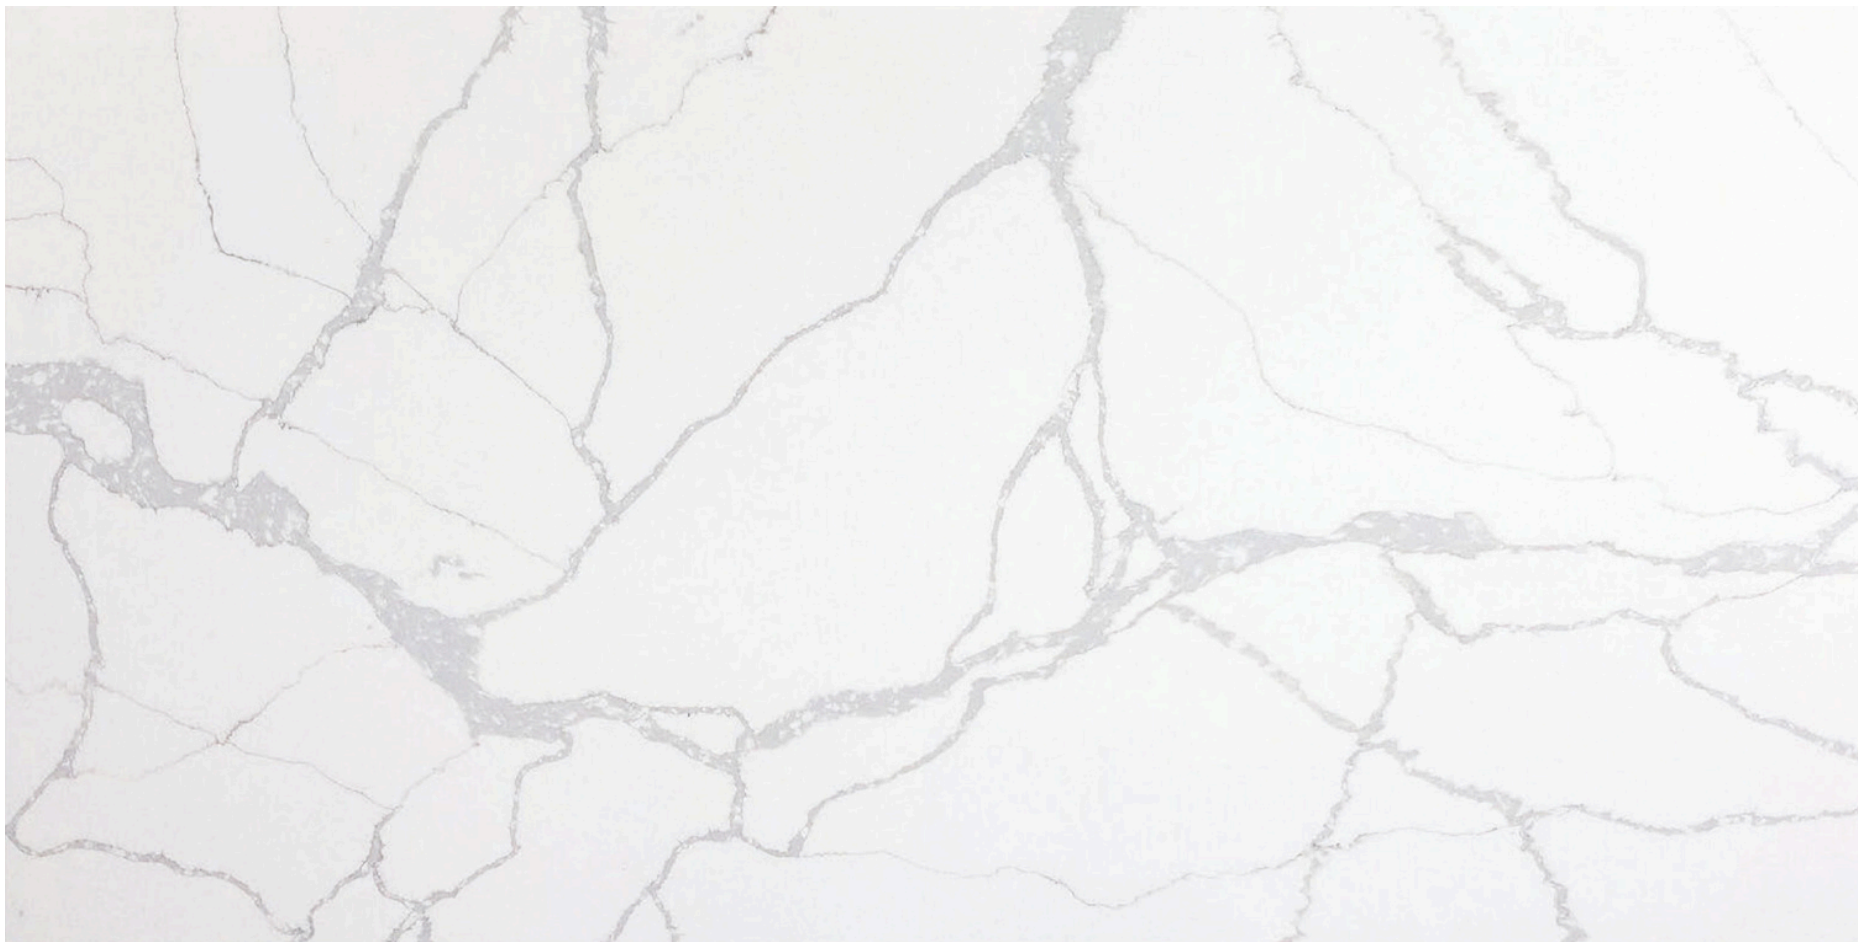

A bold version of Calacatta, featuring stronger contrasts and more impressive veining for statement-driven designs.

CODE: 4028

DIMENSIONS

3200*1600*20mm

3200*1600*30mm

STATUARIO

A bright white surface defined by grey veining, inspired by iconic Italian marble elegance.

CODE: 4006

DIMENSIONS

3200*1600*20mm

3200*1600*30mm

PIETRA GREY

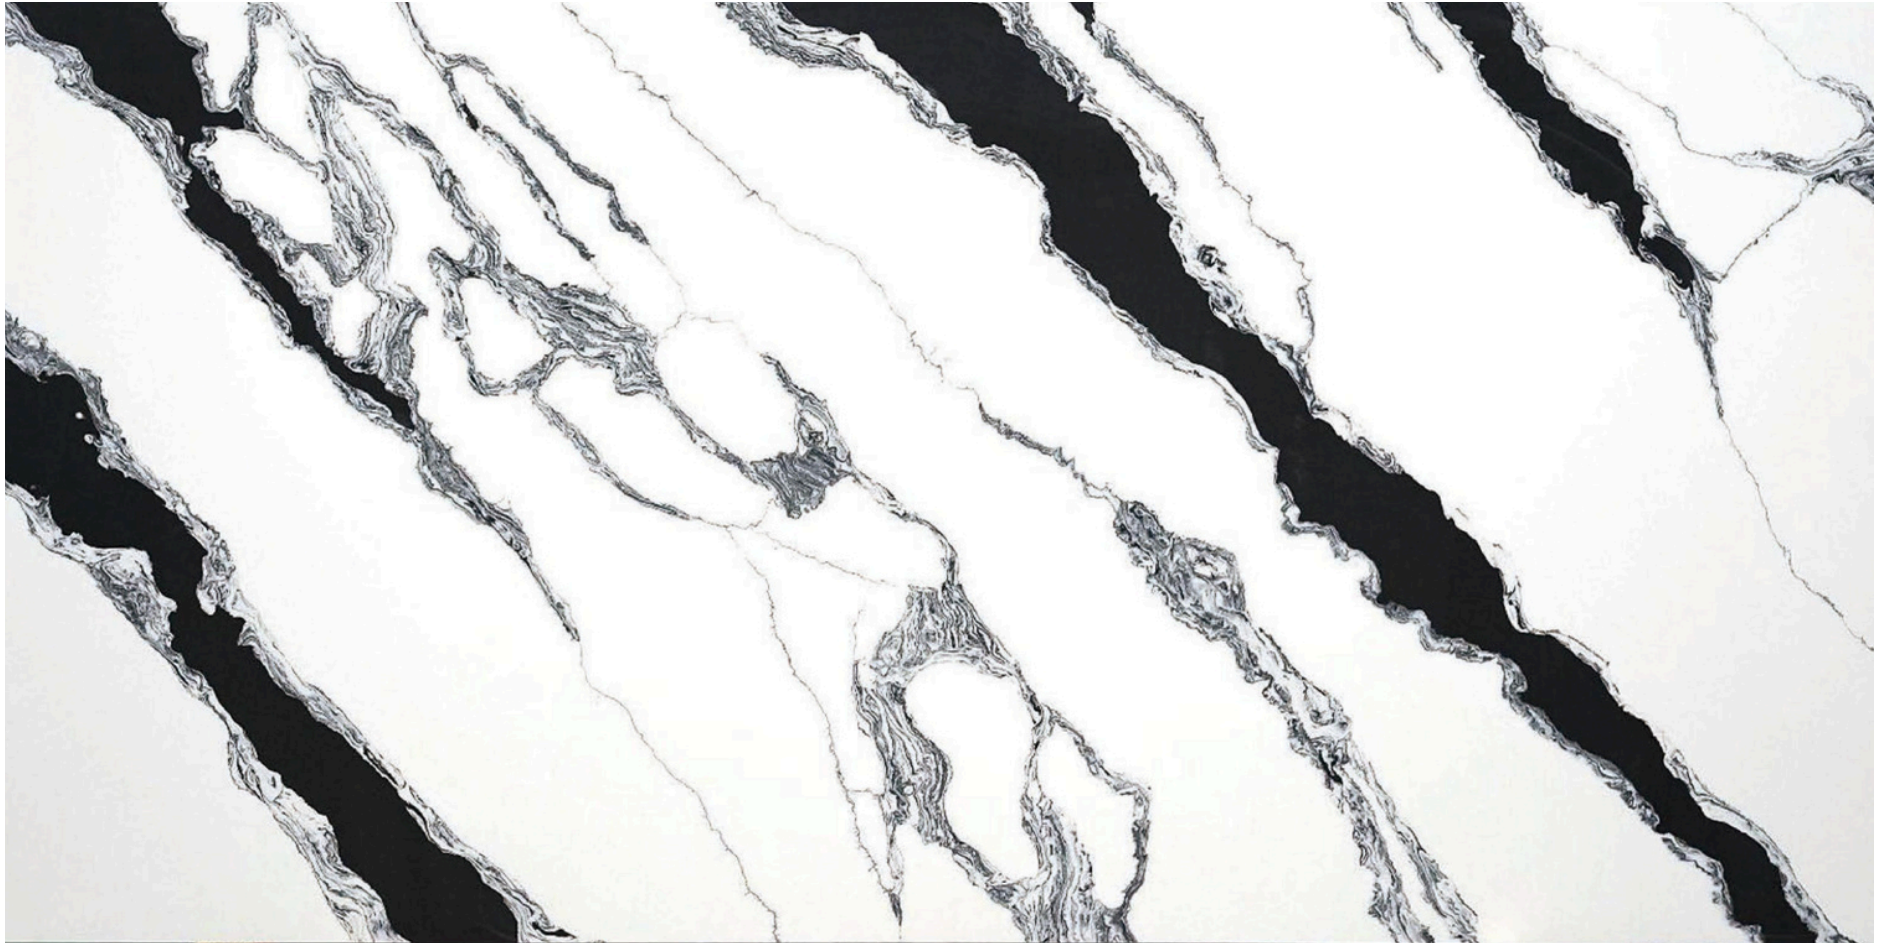

A brown surface defined by white veining, inspired by iconic Italian marble elegance.

CODE: 3111

DIMENSIONS

3200*1600*20mm

3200*1600*30mm

PANDA WHITE

A high-contrast surface combining white and black veining, creating an impressive visual result.

CODE: 6648

DIMENSIONS

3200*1600*20mm

3200*1600*30mm

NERO MARQUINA

A black surface crossed by sharp white veining, emphasizing contrast, and architectural precision.

CODE: 1038

DIMENSIONS

3200*1600*20mm

3200*1600*30mm

Summary of test results: (Average value)

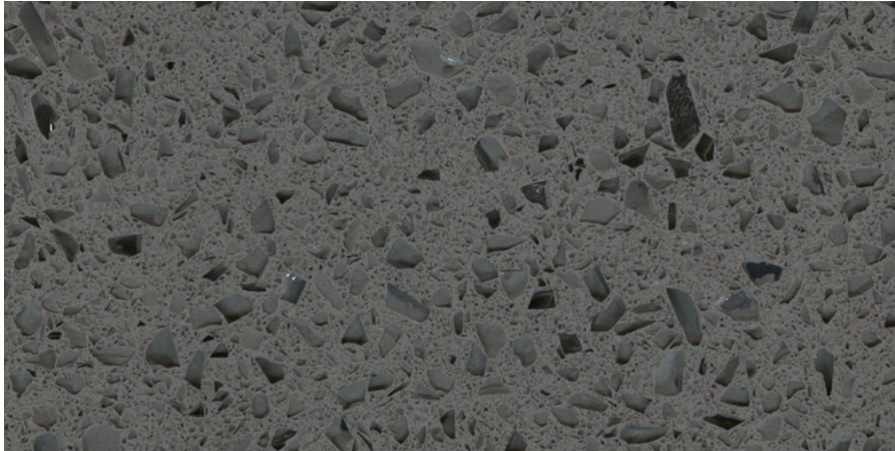

Date: 2025-07-01

Clause	Test Item	Test Method	Test Result
1	Water Absorption	EN 14617-1:2013	0.08% Classification: W ₃
	Apparent Density		2203 kg/m ³
2	Flexural Strength	EN 14617-2:2016	81.9 MPa Classification: F ₄
3	Freeze and Thaw Resistance	EN 14617-5:2012	Flexural strength after freeze and thaw: 73.8 MPa KM ₂₅ : 90.1 O
4	Thermal Shock Resistance	EN 14617-6:2012	Mass loss: 0.01% Flexural strength after thermal shock: 80.0 MPa Flexural strength loss: 2.3%
5	Slip Resistance	EN 14231:2003	SRV "dry": 63, SRV "wet": 10
6	Abrasion Resistance	EN 14617-4:2012	32.4 mm Classification: A ₃
7	Resistance to Fixing (Dowel Hole)	EN 14617-8:2007	6500 N
8	Impact Resistance	EN 14617-9:2005	14.16 J
9	Chemical Resistance	EN 14617-10:2012	Classification: C ₄
10	Linear Thermal Expansion Coefficient	EN 14617-11:2005	39.0x10 ⁻⁶ / °C
11	Dimensional Stability	EN 14617-12:2012	Class: A Vertical displacement: 0.01 mm
12	Dimensions, Geometric Characteristics and Surface Quality	EN 14617-16:2005	Tolerance: see the following Surface quality: No defects
13	Thermal Conductivity and Thermal Resistance*	EN 12664:2001 Heat Flow Meter Method	See Result

Note: * test project/method was carried out by subcontractors.
